Patsy started receiving physical therapy after experiencing several falls and was unable to get up. The paramedics had to come several times to help Patsy get off the floor. A social worker got a referral from Patsy's doctor for physical therapy. She was seen twice a week for 2 1/2 months.

Patsy worked very hard on aggressive strengthening for her arms, legs and core muscles.

Check out the following Videos to see her progress.

## Thank You Patsy

Thank you for working so hard during therapy visits  
Patsy, we hope you enjoy the results of your hard work.

Patsy's improved gait speed puts her at less risk for  
falls and generalized better overall health. She is even  
able to walk her little dog Mackenzie outside now!
